

Family Invertebrate Day

Join Ribble Rivers Trust and Prospects to discover what's living beneath the surface of our rivers.

Come along and find out about the fascinating creatures at the heart of the aquatic food web. We will have a variety of aquatic invertebrate life from local rivers and ponds.

We will also be running pond-dipping trips, so you can have a go at catching and identifying aquatic life yourself.

For more information about the event, contact: 01200 444452.

When?
